HMS to Provide Medical Support Services to Indiana Department of Child Services

NEW YORK, September 24, 2008 – HMS (NASDAQ: HMSY) announced today that the State of Indiana Department of Child Services, Child Support Bureau, has chosen to participate in the Arkansas Medical Support Services Consortium (MSSC), which is administered by HMS. HMS will identify commercial insurance healthcare coverage available to child support dependents from their non-custodial and custodial parents. In addition, HMS will generate and process National Medical Support Notices (NMSNs) to employers to obtain insurance information needed to enroll the dependents.

HMS is the designated vendor for the MSSC, a contracting mechanism through which child support agencies nationwide can obtain medical support services at competitive prices. The services offered through the MSSC and provided by HMS include insurance identification and verification and National Medical Support Notice processing.

Federal regulations and state laws require IV-D agencies to obtain, maintain, and enforce medical child support orders. Many of these children may be enrolled in public assistance and Medicaid programs. HMS's services identify children who have access to private healthcare coverage through a non-custodial or custodial parent.

About HMS

HMS is the leader in coordination of benefits and program integrity services for government healthcare programs. The company's clients include health and human services programs in more than 40 states, 80 Medicaid managed care plans, the Centers for Medicare and Medicaid Services (CMS), and Veterans Administration facilities. HMS helps ensure that healthcare claims are paid correctly and by the responsible party. As a result of the company's services, government healthcare programs recover over \$1 billion annually, and avoid billions of dollars more in erroneous payments. HMS is a wholly owned subsidiary of HMS Holdings Corp. (NASDAQ: HMSY), which is headquartered in New York and operates offices nationwide.
