

## **HMS Ranks No. 30 on Healthcare Informatics 100**

*Inclusion on List of Top U.S. Healthcare IT Companies  
Affirms Company Growth and Product Diversification*

**IRVING, Texas, June 6, 2017**—HMS Holdings Corp. (NASDAQ:HMSY) today announced it has placed No. 30 on the [Healthcare Informatics 100](#) list, reflecting the company’s ongoing success in improving financial and health outcomes for payers and at-risk providers.

For more than 25 years, the Healthcare Informatics 100 has ranked companies with the highest revenues derived from healthcare IT products and services earned in the U.S. during the past year.

In 2016, HMS reported annual revenues of \$496 million.

“Being recognized among industry leaders on the Healthcare Informatics 100 affirms that we are delivering on our pledge to use innovative, time-tested technology and analytics to help our clients reduce costs, improve quality, and achieve compliance,” said Bill Lucia, HMS Chairman and CEO.

“Our 2016 acquisition of Essette, a market leader in care management software, is evidence of our strategy to bring new solutions to at-risk organizations — helping them improve financial performance and health outcomes,” he added. “We’re gratified to be included in the Healthcare Informatics 100, and focused on helping to make the system work better for our clients and the people they serve.”

### **About HMS**

HMS delivers the broadest range of cost containment solutions in the industry to improve financial and health outcomes for organizations at risk. Using innovative technology and powerful data analytics, we help clients reduce costs, increase quality, and achieve regulatory compliance. As a result of our services, clients save billions of dollars every year and reach their performance goals.
